TABLE OF CONTENTS

EMERGENCY PROCLAMATION and EMERGENCY POWERS

The St George Select Board shall have the power and authority to issue a proclamation that an emergency exists under the conditions specified in Title 37-B M.R.S.A. sec. 742. The proclamation may declare the fact that an emergency exists in any or all sections of the Municipality. A copy of such a proclamation shall be filed within twenty-four (24) hours with the Town Clerk.

(A) Notwithstanding the above, when consultation with the Select Board would result in a substantial delay in an effective response in alleviating or preventing an emergency or disaster, the Chairperson of the Select Board is authorized to take whatever actions are necessary to prevent the loss of life and property in the Town of St George.

(B) Whereas, the Select Board is charged with the responsibility for the well being of citizens within said Town; and

0

(C) Whereas, the Select Board is in session only at special times, and when the Chairperson of the Select Board is not available, they have empowered the St George Emergency Management Director with the authority to proclaim an emergency state for or within the said Town should it exist.

0

(D) The St George Emergency Operations Plan shall be the Town's governing document for emergency response and recovery by all municipal organizations. An emergency situation shall be defined as an event that threatens the life, safety, and property of the residents or visitors of St George or destruction of the environment.

BASIC PLAN

PURPOSE

This emergency operations plan identifies hazards and vulnerabilities and the likelihood and severity these hazards will impact the communities vulnerabilities. This plan defines the efforts and resources to mitigate the effects and prepare for and respond to an emergency or disaster event.

SITUATION AND ASSUMPTIONS

The Town of St George could experience disaster situations that are local or statewide. Local disasters could include forest fires, hazardous materials incidents, mass casualty incidents, building collapses, or a school attack Statewide disasters may include flooding, prolonged power outages and severe winter storms. A Hazard Risk Assessment was completed with the following results:

Hazard	Ranking	_
Severe Winter Storm	1	
Prolonged Power Outage	2	
Wildland / Forest Fire	3	29
Mass Casualty Incident	4	
Localized Flooding	5	
HazMat (Transportation)	6	0
Hostile Incident at School	7 _~ <	Q
	, XV	Ŷ

Severe winter storms have the potential of shutting down the community by blocking roads, knocking out electrical power distribution, freezing facilities, and trapping people.

We have already experienced in recent years a **prolonged power outage** as the result of an ice storm. This will affect the entire town and will have its greatest impact to living conditions during severe cold weather.

Since most of St George is forestland or withland urban interface, the entire town is very susceptible to an out of control wildland/forest fire and could cause severe property damage and limited loss of life.

A Mass Casualty Incident could occur resulting from a passenger vehicle accident, or as a result of any of the described disaster hazards. Since St George is some distance from the nearest hospital and mutual aid services, this situation maybe difficult to manage. Response times could be delayed.

There are a few properties within the St George Floodplain. The most likely damage from **flooding** will be to roadway sections that contain bridges or culverts and through erosion of gravel roads.

Though **hazardous materials** could be transported on any community road, the greatest traffic flow of hazardous materials is along Route 131. The residences and public school along this traffic corridor are most susceptible to a HazMatinerdent.

The most likely **hostile incident at the school** would involve the St George Elementary School complex. This contains the largest concentration and the most vulnerable people in the community. Attacks may involve the taking of hostages, bomb threats or explosions and/or mass shootings.

Other hazard events could occur, but are very unlikely. As such, this plan will develop an All-Hazards Emergency Response, but will not define other hazards in the Hazard Attachments.

HAZARD EVENT	VULNERABILITY LOCATION	LIKELIHOOD	MAJOR DAMAGES	DEATHS OR INJURIES	_
Forest Fires	Entire Town	Occasional	Forests & Homes	Firefighters	
HazMat Incident	State Route 131	Occasional	Roadway	Residents & Responders	- Constanting
Mass Casualty	Anywhere	Occasional	None	School or Transport	
School Attack	School	Remote	School	Students & Faculty	Ô
Flooding	Gravel Roads	Probable	Roadways	None 🔬	
Power Outages	Entire Town	Probable	Frozen Plumbing	None 🖉	
Winter Storm	Entire Town	Frequent	& Power Lines	Motorist or Elderly	
Flooding Power Outages	Gravel Roads Entire Town	Probable Probable	Roadways Frozen Plumbing	None None	

The Town of St George does not have its own hazardous materials response team or public transportation. The Knox County Sheriff's Department provides the Town of St George with law enforcement. The Regional hospital is located in Rockport. The Knox County Regional Response Team (RRT6) provides haznat response. The school district could provide emergency public transportation. Public works are contracted through the St George Road Commissioner. Fire Protection services are handled by the St George Fire Department.

The likelihood of a disaster situation occurring in St George that could cause multiple deaths or injuries is very low. There are no large passenger transportation services. There are few structures over two stories. Local forest fires are not swift and timely evacuations of the low population density would not be difficult. Residents are accustomed to dealing with winter storms and power outages. There are no major bridges or waterways in town and only 24 homes are in flood zones. The major portion of transported hazardous materials consists of petroleum products and the hazards would be localized. School attacks present the only reat danger to life, but the likelihood is remote.

CONCEPT OF OPERATIONS

The Emergency Management (EM) Director is responsible to the Select Board for coordinating disaster response activities, requesting resources from mutual aid partners and from the County and for compiling disaster information. The Select Board is legally responsible for the function of the local government.

Disaster or major emergency notification will most likely come from the National Weather Service (NWS), the Emergency Alert System (EAS), and the Knox County Regional Communication Center (KRCC) radio-page to the St George Fire Department, a Knox County EMA text page or by announcements on area television and/or radio broadcasts.

Any one of the Selectmen or the EM Director may activate the Emergency Operations Center (EQC) or initiate the Emergency Operations Plan (EOP) if they determine that the disaster situation warrants the activation. Key town officers and citizens will be recalled to man the EOC.

The Select Board will issue an emergency declaration when the situation warrants the foll use of resources to save lives and protect property. When the emergency is beyond the control and resources of the local government, a request for assistance may be made through the Knox County EMA to the Manne EMA and Governor. The Governor may declare a disaster within certain or all parts of Knox County and make State resources available to save lives, protect property and aid in disaster recovery.

The Town is served by the St George Fire Department and the St George Ambulance Service. The Fire Chief or Senior Fire Officer may request Aid from neighboring communities. Currently, the Fire Department has written mutual aid agreements with several other towns.

For a localized emergency, such as a mass casualty incident an Incident Commander (IC) will assume command at the scene. Communications will be established between the IC and the EOC. Most of the Logistical, Finance and Planning capabilities will be located at the EOC. The IC will retain all Operations Section personnel and some limited Logistical and Planning support.

For a wide area emergency, such as a severe winter storm, all emergency operations will be run out of the EOC. Emergency Responders and Emergency Management personnel will be dispatched by the EOC for specific tasks such as checking up on residents during prolonged power outage or delivering situation reports when hard-line communications are out.

A limited EOC may also be activated if emergency and disaster support is being provided to other communities. This will be primary to coordinate logistics and monitor the situation. A large forest fire in the next community could eventually impact St George, and certain preparedness actions should be started by the EOC.

ORGANIZATION AND ASSIGNMENT OF RESPONSIBILITIES

The following town officers may be tasked during a community emergency or disaster:

Select Board:

 \searrow

1 Assumes responsibility for the overall response and recovery operations by the municipality.

⁽²⁾ Approves the EOC manning assignments recommended by the EM Director.

⁹3. Establishes a public disaster assistance program.

- 4. Approves press releases to the media.
- 5. Oversees the Damage Assessment program.

Emergency Management Director:

- 1. Establishes and maintains the town EOC.
- 2. Develops all town emergency plans and procedures.
- 3. Coordinates with Knox County and Maine EMA offices.
- 4. Coordinates with local American Red Cross (ARC) and School District.
- 5. Responsible for the town Emergency Public Information program.
- 6. Responsible for the tracking and assignment of emergency/disaster resources.
- 7. Establishes EOC communications and public warning systems.
- 8. Responsible for organizing the Damage Assessment program.

Fire Chief: Oversees all fire department resources and directs fire department operations.

Ambulance Service Chief: Oversees all EMS resources and directs EMS operations.

Fire Warden: Coordinates with the Maine Forestry Service.

Road Commissioner:

- 1. Coordinates road repair and maintenance.
- 2. Provides major input to the Damage Assessment program.

ar Shelter Officer: Appointed during emergency by Select Board to establish a Disaster Shelter or coordinate with a Regional Shelter.

Town Treasurer: Tracks disaster expenditures and pays bills anthorized by the Select Board.

Communications Officer: Mans EOC telephones and radio, o

Volunteer & Donations Coordinator: Coordinates volunteers and donated items.

Animal Control Officer: Coordinates services and assistance provided to animal victims.

Health Officer:

- 1. Report on the prevention and suppression of diseases and conditions dangerous to public health to the Commissioner of Human Services.
- 2. Receive and evaluate complaints concerning nuisances posing a potential public health threat within the town.
- 3. Order the suppression and removal of nuisances and conditions posing a public health threat found to exist.

Public Information Officer:

- 1. Provides emergency information to the public.
- 2. Coordinates with and provides information to the local media

Town Clerk, Documents all municipal activities that are occurring.

Individual Assistance: Records all damages in Town to private property.

General Assistance: Assists residents with financial assistance.

ADMINISTRATION AND LOGISTICS

The Select Board and the EM Director are responsible for the activation of this plan.

The St George EM Director is responsible for the submission of reports to MEMA, through the Knox County EMA (KXEMA). Town officers provide reports of response activities, damages, and other related information to the EM Director. Each officer keeps records of actions, expenditures and financial obligations in emergency operations.

If local resources are inadequate during emergency operations, assistance is requested through mutual aid agreements. Agreements exist with other towns for emergency services. They also exist with State of Mane agencies for forest fire suppression, rural search and rescue, and riot control.

All town disaster expenditures must be approved by the Select Board on the Town Warrant. The Town Treasurer will complete all financial actions once the expenditures have been approved.

PLAN DEVELOPMENT AND MAINTENANCE

Deficiencies found in this plan should be summarized and submitted in writing to the EM Director when noted.

The EM Director maintains a file of recommended changes or improvements. Hereviews the entire plan annually and ensures that all procedures, policies, data and responsibilities are current and reflect actual assignments.

All changes to the plan will be approved by the Select Board.

ANNEX A - DIRECTION AND CONTROL

PURPOSE

The Chief Fire Officers of The St George Fire Department are stipend positions, Firefighters are paid-call and EMS personnel are volunteers. This annex will give guidance on actions to be taken during emergencies by these town officers and volunteers and the coordination efforts by the municipal officials with county, state and contractors personnel.

SITUATION AND ASSUMPTIONS

Many hazards can cause disasters of a magnitude that makes centralized direction and control necessary. The St George EOC will be established by the Select Board or EM Director if they feel the emergency warrants the establishment. Emergency staffing must be documented with the EMA Director for protection under State law.

CONCEPT OF OPERATIONS

, Ó

The priority in emergencies is to save lives, limit injuries, limit damage to property, maintain the continuity of government, and return the area to normal.

0

By Executive Order enacted May 9, 2005, the Town of St George has established the National Incident Management System (NIMS) as the municipal standard for incident management. This system provides a consistent approach for the Town of St George, Knox County, State of Maine and Federal governments to work together more effectively and efficiently to prevent, prepare for, respond to and recover from domestic incidents, regardless of cause, size or By adopting NIMS, the Town of St George utilizes standardized terminology, standardized complexity. organizational structures, interoperable communications, consolidated action plans, unified command structures, uniform personnel qualification standards, uniform standards for planning, training, and exercising, comprehensive resource management, and designated incident facilities during emergencies or disasters. The NIMS Incident Command System (ICS) is utilized by all St George emergency and disaster responders for incident management.

Normally, initial notification of an emergen will be a radio-page from the Knox County Regional Communications Center (KRCC) to the Town's firefighters and EMTs. There are no firefighters or EMTs on shift duty. Disaster or major emergency notifications will most likely come from the National Weather Service (NWS), the Emergency Alert System (EAS), the KRCC radio-page Fire Department, a Knox County EMA "Fan-out" to the EM Director, or by announcements on area television and/or radio broadcasts.

The Selectpersons have responsibility for the continuance of local government operations. The EM Director assists the Select Board in Chris task. Any one of the Selectpersons or the EM Director may activate the Emergency Operations Center (50°C) or initiate the Emergency Operations Plan (EOP) if they determine that the disaster situation warrants the activation. Key town officers and citizens will be recalled to man the EOC. The EOC can be activated at three different manning levels.

		E	DC ACTIVATION LEVELS
	DEVEL	STATUS	ACTION
Ô(\mathbb{Q}^{\vee} 1	Standby	EOC Set up and ready to be activated
\bigcirc	2	Increased Readiness	EM Director man the EOC on a temporary basis
	3	Full Activation	Entire EOC staff recalled; 24 hours shifts established

The primary Emergency Operations Center (EOC) is set up at the St George Fire Station. The alternate EOC is located at the Town Office. The EOC's communications capabilities include telephone, internet and 2-way radios.

If an on-scene command post is established, the incident commander is the senior officer on the scene from the emergency service best suited to handle the situation. For a situation involving a fire or hazardous materials, the Incident Commander will be the Fire Chief. For any incident involving a terrorist situation, the first or most senior law enforcement officer from the County or State Police will be the Incident Commander. The command post keeps the EOC informed of the situation. The St George EOC keeps the Knox County EOC informed. a the construction of the

ORGANIZATION & ASSIGNMENT OF RESPONSIBILITIES

The Select Board exercise broad control over emergency operations. The Selectpersons provide guidance on policy and approve information for the public. Town officers manning the EOC assure work is accomplished in a mutually supportive way. The EOC staff keeps in contact with field forces and record their status such instructions to personnel, monitor progress, and keep the Selectpersons informed.

When directed by any one of the Selectpersons or by the EM Director, the EOC will be established and manned. At the discretion of the Selectpersons or EM Director, the following town officials and solutions may be included in the Town EOC:

Select Board Town Manager/Administrator or Clerk Fire Chief & Fire Warden Ambulance Director Health Officer Public Information Officer Volunteer and Donations Coordinator General Assistance Clerk

Emergency Manager Treasurer Police Chief Animal Control Officer ^{*}Road Commissioner **Communications Officer** Shelter Officer Individual Assistance Coordinator

The following emergency functions will be accomplished during an emergency in St George.

Law Enforcement: The Town of St George relies heavily on the Knox County Sheriff's Office and the Maine State Police for Law Enforcement. Operational communications will be established between the Incident Commander on scene and the Senior Law Enforcement Officer. The EOC will maintain landline communications with the KRCC to coordinate additional law enforcement requirements.

Fire Services: The St George Fire Department consists of 24 volunteer firefighters. Fire Department personnel may assist with damage assessment, search and rescue, firefighting, clearing debris, alerting the public, evacuation, and traffic control, if necessary.

Emergency Medical Services: The St George Ambulance Service has one ambulance and 12 volunteers. Operational communications will be established between the Incident Commander on scene and the Senior EMS Officer, The EOC will maintain landline communications with the regional hospitals.

Public Works: Road work is contracted to private companies through the Select Board, with assistance from the Road Commissioner. They are responsible for highway maintenance and will assist in damage assessment.

ADMINISTRATION AND LOGISTICS

The EOC may require 24 hour manning during the emergency period. Additional volunteers will need to be sought out.

Only the Selectpersons may authorize emergency town expenditures. This will be done on a town warrant.

Situation reports are compiled twice daily or as requested and forwarded to the Knox County EMA; at 7 am and 6 pm. Each municipal officer keeps a record of major events during EOC operations. The EM Director develops the event log. The Communications Officer keeps phone traffic logs. Additional operational reports are committed as requested.

Any requirements for food, water, emergency power, fuel, heavy equipment, and supplies that are more then the Town of St George can provide should be submitted to the Knox County EMA by the Selectpersons or EM Director.

The Town of St George is limited in its response and recovery capabilities. Many services will require mutual aid from other communities and from state agencies.

	1-800-222-1222	596-6666 or 596-6667	Control

The Town of St George uses the National Incident Management System (NIMS) version of the Incident Command System (ICS). During any emergency, an Incident Commander will be identified in the field to coordinate emergency response and recovery forces. Normally, the IC will be the Senior Fire Officer (SFO) from the St George Fire Department. However, for incidents such as a multi-jurisdictional forest fire or a hostage incident at the school, the IC could be a County or State Official. In this case, if possible, the SFO will seek to establish a Unified Command in order to represent the jurisdiction of the Town of St George.

A St George IC or member of a Unified Command will maintain communications with and report to the St George EOC, which will oversee all municipal activities. Most Planning, Logistics and Finance Section duties will be carried out at the St George EOC. The on-scene IC will assign a Planning Officer and Logistics officer to coordinate support from the EOC and oversee planning and logistical resources located on-scene.

STATE of MAINE LOCAL EMERGENCY / DISASTER SITUATION REPORT

SITUATION REPORT INSTRUCTIONS

1. Introduction

During an emergency, information on the nature, severity, and extent of the hazard's effects must be collected and analyzed. The results must be reported through established channels. This information provides officials a logical basis for their response decisions.

Following a hazard incident, local field units must promptly conduct a rapid reconnaissance of affected areas to assess the situation and report the information to local officials. This information should be consolidated at each level. The information is then reported to the Knox County EMA.

Depending on the severity of the situation confirmed by the reports, a decision is made at each devel of government on the declaration of a "State of Emergency".

0

00

When required, these actions are followed by a detailed assessment of damage to both the public and private sector. These estimates (in dollar amounts) serve as the basis for a request of a Presidential disaster declaration. (See Annex I - Damage Assessment)

2. Situation Reporting

Following the initial area reconnaissance, reports are required at teast daily to provide detailed information to the various levels of government. Reports normally originate at the municipal level. They identify the area being reported on and include observed damage. They shall be submitted through the Knox County EMA to MEMA and consist of the following types of reports:

a. <u>Verbal Reports</u>: The first report is submitted by radio or telephone. Verbal reports are submitted as quickly as possible following a hazard incident.

b. <u>Situation Reports</u>: A refined Situation Report is prepared and submitted through the County to State EMA at least daily or as requested. This report defines affected areas, identifies closed roads and highways, estimates the number of dead or injured, homes damaged and resources needed

Reports will provide, as a minimum, the information contained in the Situation Report Form. (See Annex I - Damage Assessment for further reporting requirements.)

ANNEX B - COMMUNICATIONS

PURPOSE

Communications during an emergency are critical. This annex shall describe the communications capabilities of the Town of St George. It shall also provide telephone and radio lists.

SITUATION AMD ASSUMPTIONS

Most local emergencies should leave the telephone system intact, however certain disasters, such as a severe winter storm, could knock out telephone communications. Telephones shall be used as the primary means of communicating. Two-way radios shall be used as a secondary and augmenting means of communication to the telephone system and as the means to communicate with personnel in vehicles or in the field. As much as possible, email shall be used to transfer photos and large amounts of data.

When neither telephone nor radio is functioning or unable to reach the intended party, runners may be used as an emergency stop-gap measure. Volunteers with appropriate vehicles (4WD, ATV, prowmobiles, etc) will be requested to support this measure. Consideration should also be made to using and compensating volunteers with cellular and satellite phones. Additionally, Knox County EMA can activate ARES ACES HAM radio personnel.

CONCEPT OF OPERATIONS

The EOC shall communicate by telephone whenever possible. The primary EOC phone number is 372-8581. The Alternate EOC phone number is 372-6363.

The Fire Department and Ambulance Service have about eighteen hand-held two-way radios with the Knox County standard frequency assignments and CONOPS. Radio traffic may be relayed through the radio base station at the Fire Station.

The Fire Station has a multi-channel two-way radio base station. Contact with the KRCC and Knox County EMA is possible. All the volunteer firefighters and EMTs are issued a radio-pager. Page-outs maybe initiated from KRCC or the Knox County EOC. The Fire Station also maintains a radio scanner. All emergency vehicles are equipped with mobile truck radios.

The Town Office and Fire Station (firedept@stgeorgemaine.com) both have Internet and E-mail connectivity. Reports and pictures can be e-mailed from the Town to the County or State government officers.

The Fire Station and Town Office can send and receive fax transmissions. (372-8954)

If the telephone system is down, then the radio system will become the primary means of communication. However, if power is lost, many of the radios and pagers may die if there is no means of recharging them. In this case, it may become necessary to set up a system of "runners". Runners are people with transportation who will be used to hand deliver messages.

ADMINISTRATION AND LOGISTICS

The EOC shall determine what communications requirements is needed and allocate town resources as necessary.

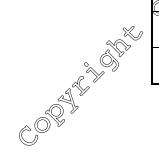

Consideration should also be made to determine what private communication assets may be borrowed or rented from local residents and volunteer groups.

ANNEX C - WARNING

PURPOSE

This annex describes the current warning capabilities of the Town of St George and Knox County.

SITUATION AND ASSUMPTIONS

The primary National Warning System (NAWAS) warning point for Knox County is the Knox County Regional Communications Center (KRCC) located at 327 Park Street in Rockland. The KRCC number is 594-5656 or 911. The KRCC is staffed on a 24-hour basis and notifies jurisdictions of warnings received. The Knox County EMA is the alternate warning point. The National Oceanic and Atmospheric Administration (NOAA) Weather Radio system serves the entire County. It also provides warnings of hazard situations; e.g., severe weather, national security and nuclear power incidents.

The primary local warning point is the St George Fire Station. The secondary warning point is the St George Town Office. The EMS & Fire Department members and EM Director can be radio-paged out by the KRCC. The EM Director is responsible for alerting the Selectpersons and town officers. He is also responsible for providing warning to the St George Elementary School and the public via warning devices and mobile notification.

CONCEPT OF OPERATIONS

The dispatcher at the Knox County Warning Point (KRCC) fans out information to the local jurisdictions, by contacting the municipal emergency management directors.

The Emergency Alert System (EAS) is activated according to the Maine Emergency Alert System Plan. The St George EM Director may contact the Knox County EVA Director or KRCC to request activation of the EAS system. Knox County will pass the request to the Maine Emergency Management Agency (MEMA) who can complete the EAS activation. The St George EM Director or Selectperson may also contact area radio stations directly to request that they pass emergency information.

ORGANIZATION AND ASSIGNMENT OF RESPONSIBILITIES

The St George Select Board are ulimately responsible for ensuring that alerting and warning capabilities exist and special needs populations (school children and elderly) are notified.

The EM Director shall update Town Officer Phone Rosters, alert EOC Staff, relay fan-out information and report status to the Knox County EMA.

The EOC shall initiate warning communications to town residents through phone calls, traveling teams or by commercial radio stations.

ADMINISTRATION AND LOGISTICS

The EOC Communications Officer will make verbal and written reports of alert notifications received, actions taken, and times of completion. These reports are recorded and given to the EM Director.

ANNEX D - EMERGENCY PUBLIC INFORMATION

PURPOSE

This annex will describe the Emergency Public Information program and the duties of the Public Information Officer (PIO).

SITUATION

The Town of St George has an ongoing program to provide information about potential hazards, local government preparedness activities and emergency services to the public. Activities may include brochures pamphlets, publications, and press releases.

Town residents will need to be notified immediately if forest fires, a hazardous materials accident, or a terrorist situation forces them to either shelter in-place or to evacuate. Residents will need to be informed, as soon as time permits, as to actions they should take during flooding of roads or a severe winter storm of George School children and elderly living alone should be notified and assisted first.

The primary means of dissemination will be by telephone. The EOC will call keep residents on each of the town roads and request that they pass the word to their neighbors.

The secondary means of dissemination, especially within the immediate danger zone, will be by using the Fire Department to go door-to-door.

The use of e-mail should also be utilized

The Selectpersons should consider contacting area radio and television stations to disseminate information.

CONCEPT OF OPERATIONS

The Selectpersons and/or EM Director will initiate the dissemination of emergency public information.

The Town Media Center will be established in a Services Area remote from the EOC for major incidents that require TV/news Media to arrive in Town. Media briefings are held as frequently as possible. Media releases are prepared in the EOC. The EOC will monitor radio & television news for media feedback and information.

The Maine EMA activates the Emergency Alert System. The EOC will contact the County EMA Director or KRCC to request the State activation of EAS.

The Public Information Officer (PIO) is responsible for all contacts with the media.

ORGANIZATION AND ASSIGNMENT OF RESPONSIBILITIES

Either the Town Manager, a member of the Select Board or a volunteer will be selected to be the St George Public Information Officer (PIO). The EM Director will act as an alternate PIO. The PIO is responsible for providing emergency information to the public and media. If time permits, the PIO should coordinate any news releases with the Selectpersons, prior to release. The PIO keeps logs of emergency information activities.

ADMINISTRATION AND LOGISTICS

Emergency information is released to the local media through the EOC. Information is verified before release. Rumors are investigated and correct information issued if necessary. Radio, television and newspaper Conversion of conversion to a first a law a conversion of the conv announcements are monitored to ensure accuracy.

EMERGENCY PUBLIC INFORMATION CHECKLIST

Below are suggested actions for the St George Public Information Officer (PIO) to take during an emergency. Changes may be made depending on the situation.

_____ Ensure that information is clear, confirmed, and approved by the Selectpersons or IC before release to the media or public. Do not release unconfirmed information or speculate on the extent of the emergency.

INCIDENT INFORMATION

Monitor news programs and review news articles for accuracy. Correct serious misinformation whenever possible.

Provide sufficient stating and telephones to handle incoming media and public inquiries (rumor control) and gather status information.

____ Ensure that official spokespersons are thoroughly briefed about all aspects of the emergency.

Initiate procedures for contacting people who may have been injured or suffered losses.

Reep the Selectpersons informed of all actions taken or planned.

Maintain a log and a file.

Keep Knox County EMA informed of all information released.

ANNEX E - EVACUATION

PURPOSE

This annex will describe the provisions for the Town of St George to ensure the safe and orderly evacuation of residents threatened by disaster situations.

SITUATION

Evacuation may be used to protect the health and safety of the public. Private vehicles and school buses are the primary means of transportation. Emergency services vehicles are also used when needed for incapacitated people. No one can be forced to leave their home, but efforts are made to inform every one of the threat and of hop available for evacuees.

Town residents may be evacuated if they are threatened by an out-of-control forest fire, a mazardous materials accident, or a terrorist situation. A forest fire threat exists in all parts of town. The most likely location for a hazardous materials accident is along the Route 131 traffic corridor. The most likely location for a terrorist situation is at the elementary school.

A slow, controlled evacuation of a few residents may take place in a severe winter storm. The most likely evacuees will be elderly residents or families who lose the ability to heat their homes.

CONCEPT OF OPERATIONS

The EM Director or Fire Chief will oversee a general evacuation of residents within the town. They may request assistance from the Knox County EMA and the State of Maine.

For a terrorist situation, the senior law enforcement officer from the Knox County Sheriff's Department or the Maine State Police will oversee the evacuation of the immediate area around the incident. They may request manpower and equipment assistance from the St George Fire Department.

The characteristics, path, and magnitude of the hazard determine the number of people to be evacuated, the time available, the evacuation routes, and the distance of travel. The EM Director or the Fire Chief is responsible for the final route determination. Evacuation will be coordinated with shelter operations, emergency information and traffic control operations.

The general population uses private transportation. Those without transportation, including elderly and handicapped, are transported by other means. The EM Director maintains a list of these persons who require special assistance in an evacuation. The EOC will contact the Superintendent for School District #50 in order to request school buses to aid in the evacuations.

Evacuation and reentry instructions are given via radio, television, and by traffic control personnel. Signs and cones may be needed to help direct evacuees.

ORGANIZATION AND ASSIGNMENT OF RESPONSIBILITIES

The Selectpersons are the authority for establishing evacuation policy.

The EM Director coordinates evacuation activities, compiles all evacuation information, and keeps the Selectpersons informed. The Fire Department, with assistance from the Knox County Sheriff's Department, shall be responsible for traffic control and barricades. The Animal Control Officer will coordinate efforts for the evacuation and sheltering of animals, especially farm animals.

ADMINISTRATION AND LOGISTICS

Ĉ

The Selectpersons, Fire Chief, or EM Director is responsible for ordering evacuation to protect the health and safety of the public. The first responding emergency services personnel initiates emergency evacuation of a threatened area and notifies their headquarters.

Attempt should be made to record the names of all those residents who have been evacuated.

Return to the evacuated area takes place when it is deemed safe for the citizens to return. Reentry will be handled in the same way as the evacuation.

Emergency services personnel in the field report the status of evacuation to their agencies. The agency keeps the EOC informed. The EOC informs the Knox County EMA of response actions.

EVACUATION INFORMATION

ANNEX F - MASS CARE

PURPOSE

This annex will describe the St George Mass Care Shelter program.

SITUATION

It may be necessary to seek shelter from the effects of hazards and to shelter evacuated people. It is the responsibility of the Select Board to protect their residents by providing shelters when required in an emergency.

The Mass Care facility for large evacuations that will require overnight accommodations will be the Elementary School. This facility will be used as feeding and sleeping quarters for evacuated residents. Contact the School Principal to coordinate the possible use of this facility. An alternate facility if residents only require a day-time shelter for food, water and warmth will be the St George Fire Station. These two facilities are located in Tenants Harbor village. Other facilities and manpower may come from local organizations, such as the Grange and the Masons.

The Knox County EMA may also offer shelters for use by St George residents. Contact the Knox County EMA Director for more information.

Requests may also go to the local American Red Cross for assistance is establishing, manning, and managing a local shelter.

Due to the lack of Extremely Hazardous Substances (EHS) hazardous materials (HazMat) being transported through St George, sheltering-in-place by St George residents might not be considered.

CONCEPT OF OPERATIONS

The EM Director will work with the Knox County EMA and the American Red Cross in developing shelter use agreements, selecting shelter sites, and training shelter management teams. The EM Director coordinates the efforts of the municipal officials, school system, other facility owners and the Red Cross.

If the Red Cross is not involved in the town shelter, then the Select Board will assign a Shelter Manager who will supervise operations in the facility. This person may be any town resident who is willing to take on the responsibilities. Consideration should go to a local organization, such as the Masons, Grange or a Church to request manning for a shelter management team. The Shelter Manager reports to the EOC. The Shelter Manager assigns groups with special needs to similar facilities in a safe area according to staff and space available. If at all possible, these volunteers should receive ARC Shelter training.

The EOC will determine if and when the town will activate a mass care facility. Due to the fact that most people will stay with relatives or friends, an overnight shelter may not be required. Determine if there are any residents who do not have a place to stay.

Actions must be taken to register people reporting into the town shelter, sustain them in the shelter, and release them from the shelter when the hazard has diminished.

Feeding, sanitation, and bedding for the shelter residents will need to be provided. The Selectpersons may authorize the purchase of emergency supplies, food, water, sanitation supplies, cots, and blankets for the shelter. Contact should be made with the St George Food Pantry (123-5743).

Consideration should be made as to establishing a bus service to pick up those needing sheltering and transporting them to the St George or primary Knox County regional mass care shelter.

ORGANIZATION AND ASSIGNMENT OF RESPONSIBILITIES

The Select Board is responsible for ensuring shelter capabilities exist. There is a regional agreement between the County EMA and the Local Chapter of the American Red Cross to manage certain shelters in many emergencies. The ARC will coordinate and manage their shelter management teams. If the shelter is not operated by the ARC, a town resident must be appointed the Shelter Manager to ensure that all shelter tasks (registration, feeding, etc.) are accomplished.

0

0

The Animal Control Officer is responsible for organizing an effort to help shelter local animals. Animals may be sheltered in facilities collocated with the St George mass care shelter.

ADMINISTRATION AND LOGISTICS

Evacuees are assigned to shelter and feeding facilities depending on the hazard effects of the emergency. Attempts will be made to allocate 40 square feet per person.

The Shelter Manager will keep the EOC informed of the status of the shelters. The BOC will keep the Knox County EMA informed.

Complete records of expenditures and operations are given to the EOC_{\sim} Copies are given to the Red Cross for reimbursement if the Red Cross operates the shelter. If the town openates a shelter on its own, the town will be required to shoulder all the costs (may be reimbursable if a Stafford Act Disaster Declaration is made).

MASS CARE CHECKLIST

ACTION Х

- Contact the American Red Cross Chapter and alert them to possible need for sheltering. If American Red Cross cannot support a shelter in St George, contact the Knox County EMA to determine if the County is establishing any shelters. If the County is not providing a county-wide shelter, contact local volunteers and activate a shelter. Cost may be borne by town. $\bigotimes_{n=1}^{\infty}$ Ensure the Shelter is adequately stocked and staffed. Ensure security is provided for Shelter. Provide communications link between the Shelter and the EOC. Maintain status of shelter operations and allocations. Clean and return the Shelter to original condition.
- Submit shelter expenditure statement for reimbursement.

ANNEX G - HEALTH AND MEDICAL

PURPOSE

This annex will describe the Health and Medical options open to the Town of St George.

SITUATION AND ASSUMPTIONS

The Town of St George has no medical facilities, no medical personnel, no public or environmental health services, and no mortuary services.

If there is a large scale disaster, in which there are large numbers of casualties in the area or county mutual aid emergency medical services may not be able to respond immediately to St George.

It is critical that roads be kept clear of debris so that EMS personnel can locate and transport casualties.

CONCEPT OF OPERATIONS

The Fire Chief will coordinate the requirements for medical attention at a localized disaster scene, such as a Hazardous Materials accident or a Terrorist attack.

The St George Ambulance Service will be the primary EMS.

If the situation warrants, the EOC will request volunteers to assist with Search and Rescue, expedient casualty care, and possible transportation of victims.

A Mortuary Collection Point will be established in a safe and secure area near the mass casualty incident scene for storage of the deceased. Volunteers will be used to secure the MCP.

If the incident involves HazMat, the Fire Chief must initiate decontamination measures for the emergency responders, evacuees, victims, and the deceased.

ORGANIZATION AND ASSIGNMENT OF RESPONSIBILITIES

The Fire Chief is the incident compander (IC) for all mass casualty incidents.

The EM Director will coordinate emergency medical assistance through the Knox County EMA.

The EOC will attempt to record the names of all personnel who are injured, killed, or missing.

The Select Board will request and fund the use of heavy equipment needed for debris clearance.

The Knox County Sheriff's Dept or the Maine State Police to provide security to the disaster scene.

ADMINISTRATION AND LOGISTICS

Emergency Medical support may come from the Penobscot Bay Medical Center, Miles Memorial Hospital, any mutual aid EMS agency, the Knox County CERT/MRC Team, the American Red Cross, the U. S. Coast Guard or the Maine National Guard. See the communications annex for telephone numbers.

Some town residents may have limited medical training. Contact these individuals.

ANNEX H - RESOURCE MANAGEMENT

PURPOSE

This annex will list some sources of resources in the Town of St George or in neighboring communities.

SITUATION AND ASSUMPTIONS

All emergency situations will require manpower, communications, and vehicles.

NO COS Primarily, manpower for use in disaster response and recovery will be all volunteer. The initial many wer source will be the Volunteer Fire Department and Ambulance Service. The EOC or Select Board should contact other town residents to seek out volunteers. Manpower requests should also be forwarded to the Knox County 201A.

The Town of St George owns a total of nine vehicles consisting of: three fire engines, two tarker trucks, one utility truck, one brush truck and one ambulance. Consideration should be made to contract with local contractors and individual residents for other vehicle resources.

Communications consists of telephones in the Town Office and Fire Station and in several two-way radios maintained by the Fire and Ambulance Departments. Requests for additional communications equipment should be made to the Knox County EMA and KRCC.

Forest Fires will require a great deal of manpower and water transportation. Initiate fire department mutual aid agreements with area towns and the Maine Forest Service.

Hazardous Material Incidents will require outside support immediately. The spiller/owner of the HazMat is responsible for cleanup; however, the Fire Department is responsible for establishing hot, warm and cold zones, decontaminating, isolating and evacuating contaminated people, collecting and up-channeling information on the incident, and restricting access. Notify the KRCC and Knox County EMA immediately. I C

The Town of St George has limited resources to respond to a Terrorist Incident. Actions will include extinguishing any fires, searching for explosives, evacuating the injured and closing roads in the area. The Knox County Sheriff's Department shall be notified immediately.

Severe winter storms will require show removal and debris clearance for local roads, and electrical power generation for the Fire Station and Town Office.

Flooding will require emergency road repairs, which must be contracted. Road damage assessment will be completed by the Road Commissioner.

CONCEPT OF OPERATIONS

The Town of St George will use its local resources and will call upon disaster mutual aid before contacting Knox County for assistance. The Knox County EMA then coordinates resource acquisition. Records are kept of the deployment of resources. The St George EOC will inventory town resources, replenish depleted stock and recondition or replace used equipment after an emergency.

The storage, maintenance and replacement of equipment and materials borrowed from the county and state are the responsibility of the Town of St George. This information will be tracked on a wall-mounted status board or a computer-based spreadsheet.

In a Presidentially Declared Disaster (Stafford Act Declaration), the Federal Emergency Management Agency (FEMA) and the Maine Emergency Management Agency (MEMA) establish Disaster Application Centers (DAC's) in the most seriously damaged areas. Officials at the Federal, State and County levels decide the final numbers and locations of the DAC's. Individual victims and businesses go to DAC's to apply for assistance.

The Select Board will attend FEMA assistance briefings to initiate the application process for facilities. Accurate records of damages and expenditures are kept for federal reimbursement. Following a Presidential Disaster Declaration, the cost of local emergency response operations may be partially reimbursed through a federal disaster assistance program. Protective measures also may be reimbursed.

ORGANIZATION AND ASSIGNMENT OF RESPONSIBILITIES

This plan identifies the Emergency Management Director as the St George Resource Management officer, if another has not been identified. He/she is responsible for tracking major resources and those resources obtained from outside sources. Specific attention is given to the unique needs of special care facilities and populations.

A staging area will be established in the Fire Station parking lot.

The Selectpersons will establish contracts or expend town funds to procure emergency supplies, equipment, materials, and services.

The Select Board administers the community's assistance programs. The town provides for basic needs of the affected population through local emergency assistance programs. The Selectpersons and EM Director will provide Disaster Assistance information to the town residents.

The Road Commissioner will coordinate resources to reopen blocked or damaged roads and bridges.

The EOC will coordinate the receiving of donations and the use of volunteers.

ADMINISTRATION AND LOGISTICS

The EOC staff will identify needs that cannot be met with local and mutual aid resources, and track these needs. When it appears local resources will be exhausted, a request for assistance is made to the Knox County EMA.

VOLUNTEER MANAGEMENT

The St George EM Director and/or EOC coordinates the efforts of St George's volunteer organizations and unaffiliated volunteers. The EM Director will determine what volunteers are needed for what roles, depending on the type and severity of the incident. The EM director will appoint an individual to be the Volunteer Coordinator. This person will work for the Resource Manager. The Volunteer Coordinator will set up a Disaster Volunteer Reception Center in the Town Office. This individual will make phone calls to residents requesting their volunteer support.

The Public Information Officer will contact the area TV and Radio stations and request they make an announcement regarding the need for and type of volunteers.

Residents who show up to the Disaster Volunteer Reception Center will be processed into the Ste George EM organization using the "Disaster Volunteer Survey" sheet which follows this page. Contact information and special skills will be recorded. The survey sheets will be sent over to the EOC for use in assigning volunteers to specific jobs.

Some supply items that the Volunteer Coordinator will need are: pen, pencil, highlighter, pad of paper, clipboard, stapler, post-it pad, Disaster Volunteer Survey Forms and a St George 911 Telephone Listing.

Once assigned to a disaster role, Disaster Volunteers will be issued a St George EM Badge that identifies their name and volunteer duty position. They will be integrated into the emergency response organization.

DONATIONS MANAGEMENT

The Public Information Officer shall use the media, brochures and phone calls to request the public make financial contributions as much as possible. Cash donations help to avoid the labor and expense of sorting, packing, transporting and distributing donated goods. The St George Town Treasurer will open a separate banking account for these financial donations and establish an accounting system to track the contributions.

For material donations, the EM Director will appoint a Donations Manager, who will work for the Resource Manager. The Donations Manager will use any available space in the Fire Station/Town Office or seek space at another facility to receive, inventory and distribute donated materials. The Mason or Grange Halls could be considered.

ANNEX I - DAMAGE ASSESSMENT

PURPOSE

This annex will describe the actions to be taken and forms to be completed for the Town of St George Damage Assessment program.

SITUATION AND ASSUMPTIONS

When extensive property damage, injuries, or loss of life occurs, a damage assessment expedites responseo and recovery operations.

The Road Commissioner will assess damages to town roads and bridges.

The Fire Department, along with other volunteers, will be organized into Damage Assessment Teams in order to assess damages to homes, etc. American Red Cross and MEMA guidance will be used.

All damage assessments and repair cost estimates will be reported to the EOC, and then up-channeled to the Knox County EMA as soon as possible. A verbal report may be completed prior to a written one.

CONCEPT OF OPERATIONS

There are three phases of damage assessment.

<u>Basic Situation Appraisal (MEMA Form 7)</u>: Accomplished by the Selectpersons and the OEM Director to determine the need for immediate aid and to estimate the magnitude and severity of the situation. A MEMA Form 7 and instructions for completion follow this page. It is designed to measure impact as it relates to possible Emergency Disaster Declarations by the Governor or the President.

The MEMA Form 7 is sent by e-mail, phone, fax or hand delivered to the Knox County EOC as soon as possible. The Knox County EOC Director reviews the assessment information and forwards it to the Maine Emergency Management Agency (MEMA).

<u>Preliminary Damage Assessment</u>: This assessment is completed by State and Federal damage assessment personnel with input and guidance from local officials. These personnel will assess damages to publicly owned property (bridges and roads). They also be for the private damages included on the submitted MEMA Form 7. The Knox County EMA is the liaison between these teams and local officials.

<u>Damage Survey</u>: After a Disaster Declaration by the President, State and Federal personnel conduct a more detailed survey for cost estimates of repairs to public property. The Select Board provides guidance.

ORGANIZATION AND ASSIGNMENT OF RESPONSIBILITIES

 (\mathcal{S})

The Select Board is responsible for assuring an initial situation appraisal is conducted. The OEM Director is responsible for coordination with the county, state and federal personnel involved in damage assessment.

QDMINISTRATION AND LOGISTICS

 $\langle O \rangle$

Initial damage assessment reports to county may be verbal, but are followed with hard copy information on a Form 7 within 24 hours. Prompt submission of Form 7's is necessary for assistance from the State and federal governments in recovering from a disaster.

## MAINE EMERGENCY MANAGEMENT AGENCY DAMAGE AND INJURY ASSESSMENT FORM 7 ABBREVIATED INSTRUCTIONS

Reasonable estimates are acceptable. Information should be reported to the Knox County Emergency Management Agency (EMA) within 24 hours of a request for information from Knox EMA or MEMA. Even if you consider damage in your area to be insignificant, please file this report. A complete picture of the impact of the disaster is necessary for State officials to decide if Federal assistance can be requested. Failure or delay in submission of this information may result in delay or loss of Federal assistance for your county and community.

If you need further assistance, contact Knox County EMA or MEMA.

### **General Information**

Original or revision: Check one only. Each report should contain the current totals (all the damage up to that point). Number each revised report consecutively, i.e., first revision #1, second revision #2, etc.).

Type of disaster: Enter "flooding", "hurricane", "coastal storm", "earthquake", etc.

Information provided by: Person who should be contacted for more information.

#### Public Damage

Public damages are damages to government-owned properties and facilities. They are based on the cost of returning those properties to their pre-disaster condition. They also include out-of-pocket costs incurred by government in response to the disaster.

A. Debris Removal: The debris must be a direct result of the disaster. Enter costs incurred or projected for removing debris from public property. Denot include debris removal estimates from private property, unless local government has a legal responsibility to so. Include actual and estimated costs to remove debris from public roads and streets in your jurisdiction.

B. Protective measures: These can include the cost of search and rescue, demolition of unsafe structures, and actions taken by governmental forces to reduce the threat to public health and safety. The disaster must be responsible for your extra costs.

C. Road Systems: Cost to return property to its pre-disaster condition. Include only property owned by the jurisdiction (do not include any State or Federal Aid System roads, streets, bridges, etc.)

D. Water, Control Facilities: Facilities owned, operated, or maintained by the local unit of government.

E Fublic Buildings, Facilities and Equipment: This should include any equipment directly damaged by the disaster (not those damaged during response), replacement of broken windows, damaged roofs, etc.

E 2. Schools & School Property: Separate public school supplies and property from other public facilities and equipment. Do not include private, non-profit schools. They are included under Individual Damage.

F. Public Utility Systems: Enter all costs to repair damages to City or county owned utilities and utility systems. These can be the emergency repair and/or projected permanent replacement costs.

The state of the second of the Total Public: Add totals in all public categories.

#### **Individual Damage**

Individual damages are damages to individuals, businesses and working farms (crops, livestock, buildings or equipment), and private non-profit facilities (for example, churches or private schools).

NOTE: Re-enter name of jurisdiction and current date at top of Page 2.

Residential: Primary homes are those used as reference for filing income taxes and voting. Homes may be considered "primary" which are necessary because of the location of employment. Secondary homes are usually vacation homes. If a secondary home is rented out, then damage to it would be listed under Business. Estimated values are acceptable. (Do not list homes situated on active farms in this section. They will be included under Agriculture.)

a. Destroyed: Totally uninhabitable and beyond repair.

b. Severely Damaged: Structural damage that cannot be repaired within 30 days. These houses are uninhabitable without major structural repairs.

c. Moderately Damaged: Structural damage that can be repaired within a 30 day time period. These houses can be lived in with minor repairs.

Note: The Red Cross does not categorize major/minor damage in the same manner. You should be aware of this if you decide to utilize their damage assessment.

Mobile Homes: Use same categories of damage as houses above. Water above the floor of a mobile home for any significant length of time generally causes severe damage to its even though some occupants may choose to move back in.

Note: Report numbers of homes damaged even if you denot at present know the value.

Total Residential: Include both Primary and Secondary Residences.

Business: Number Now Unemployed: Include only those who are unemployed due to the disaster. This can be the result of either business damage or their inability to travel to that business.

Agriculture: Include operating farme only. Damage to a rural located "farmhouse" and/or outbuildings that are not part of an operating farm should be listed under Residential.

Crop Land: Estimated dollar value of damage to field crops, fruit trees, and timberlands significantly damaged by the disaster.

Private Non-Profit Facilities: Do not include facilities supported by tax dollars and the responsibility of government. They should be listed in the Public Damage section.

Total Individual: Add Total Residential, Total Business, Total Agriculture and Total Private.

GRAND TOTAL: Add Total Individual Damage and Total Public Damage.

# DAMAGE ASSESSMENT CHECKLIST

Х	ACTION
	Recall all firefighters. Contact the Selectpersons and Road Commissioner. These people will form core
	_ of the Damage Assessment Team (DAT). Seek out volunteers to assist.
	Assign roads and/or areas of towns to each Damage Assessment Team. Hand out damage forms for teams to record information. Assign hand held or vehicle radios or cell phones to each DAT. Dispatch teams with water, food, and foul weather clothing. Issue each DAT a disposable camera or a digital camera.
	Assign hand held or vehicle radios or cell phones to each DAT.
	Dispatch teams with water, food, and foul weather clothing.
	Issue each DAT a disposable camera or a digital camera.
	Report damage information to the St George EOC at 123-4567. Damage reports will be revealed by
	the Selectpersons and submitted to the Knox County EMA Director.
	Request public to report damages of businesses and private property to the St George BOC.
	Consolidate damage assessment information, prepare the MEMA Form 7 and send the report to Knox
	County EMA as soon as possible.
	If severe or extended event, supply initial report to County and follow up with detailed information.
	_ Information should be reported at least daily if major disaster.
	_ Information should be reported at least daily if major disaster.

## **ATTACHMENT 1 - SEVERE WINTER STORMS**

#### NATURE OF THE HAZARD

The Town of St George is very susceptible to severe winter storms. A portion of St George's roads are single lane \$°°°° dirt roads. All St George roadsides are heavily forested.

#### **RISK AREA**

It is very easy for town residents to become trapped in their homes due to totally impassable roads, especially on the single lane dirt roads. The major concern is the difficulty for emergency response by EMS and Fife Protection Services.

Another area of concern is for elderly residents who lose the capability to heat their homes, and fail to communicate the danger they are in.

0

00

Finally, the electrical power distribution system is very susceptible to damage by accumulating ice and downed trees. Residents can be faced with extended periods of time (up to two weeks), without electricity. This will create difficulties with heating, water supply, sanitation, and food preparation.

#### DIRECTION AND CONTROL

The Select Board and EM Director should consider activating the EOC during an extended severe winter storm. The EOC will organize water supply, heat assistance, emergency food supplies, and disaster volunteers for disaster response, setting up shelters, and collecting damage assessment information.

The Select Board through the Road Commissioner is responsible for keeping the town roads open for traffic.

Central Maine Power's outage reporting hotline is 1-800-696-1000.

### **RESOURCE MANAGEMENT**

The EOC will locate at the Fire station, which has emergency standby power. The EOC will ensure that there is enough heating and generator face? flashlights and First Aid Kit. The EOC should have a portable, battery-operated radio, capable of receiving NSS transmissions.

#### **ATTACHMENT 2 - FOREST FIRES**

#### NATURE OF THE HAZARD

St George is primarily forest land and fields. Therefore, during long dry periods, the town is very susceptible to grass fires and forest fires. Most will be minor incidents that the St George Fire Department, with mutual aid support will be able to handle. This attachment will deal with a major, large scale wildland fire. je solo o

#### **RISK AREA**

The most severe threat will be to homes and the town roads. The homes of most residents are completely surrounded by forest land. The town roads are tree lined over the majority of the mileage. During a large scale wildland fire, many roads could be blocked by burning trees and brush. Residents could very well be trapped within the forest fire with no way to reach safety. The St George Fire Department will be quickly overwhelmed; with many of the volunteers themselves becoming trapped within the fire zone.

#### DIRECTION AND CONTROL

All wildland fires must be reported to the Knox County Regional Communications Center. The St George Fire Chief and the Fire Warden must quickly assess the situation and determine the scale of support needed. A large scale wildland fire will require the support of the Maine Forest Service (MYS). The Fire Warden, Selectmen, EM Director, or Fire Chief should immediately request such support through the Maine Forest Service and Knox County EMA. The EOC will be activated.

#### WARNING

Residents must be alerted immediately, in order for a safe and orderly evacuation to proceed. The EOC will contact local radio and television stations and request that they broadcast information on the disaster. The warning should contain:

a) o

- 1) The nature of the emergency and current situation
- 2) What areas are affected
- 3) What actions need to be taken by which residents
- 4) Roads that are closed  $\mathcal{A}$
- 5) Where can volunteers go to help

If possible, the Town Office will start telephoning residents in the danger zones to help spread the warning information around quecker.

# EVACUATION

The EOC will need to determine what routes will be used in order to evacuate residents. Contact the town officials of neighbøring towns to make sure that you are not evacuating people in another town's danger zones. Attempt to post the exacuation routes and barricade the closed roads. For residents that are trapped within the danger zones, consider contacting the MFS, the Maine Army National Guard and the U.S. Coast Guard for helicopter assistance.

#### **RESOURCE MANAGEMENT**

The Town has no construction equipment. However, several town residents do have construction equipment that can be used to open emergency evacuation routes and create fire breaks.

### **ATTACHMENT 3 - FLOODING**

#### NATURE OF THE HAZARD

St George is a peninsula with the St George River to the west and the Atlantic Ocean on the east and south. There are several streams; brooks and ponds in Town. The town participates in the National Flood Insurance Program (NFIP). SS.

0

#### **RISK AREA**

There are homes and few business structures in areas with a potential for major flooding. Some of these structures are subject to destruction, and others could have flooded basements.

All gravel roads with slopes may face some runoff damage, which are mostly due to inadequate drainage capabilities in the roadways. There are several roads that can become damaged from major flooding, as shown on the town floodplain maps. Some of these roads are:

- 1. State Route 131, (Port Clyde Road)
- 2. Turkey Cove Road (Little Falls by Otis Point)
- 3. Kinney Woods Road (Jones Brook)

#### DIRECTION AND CONTROL

The St George Road Commissioner or Select Board will be responsible for responding to flood damaged roads by initiating repair contracts or by contacting the Maine Department of Transportation (for State-maintained road surfaces).

### WARNING

The St George Road Commissioner or Select/Board will be responsible for posting any and all roads that he deems unsafe for vehicle or pedestrian traffic.

1

### **RESOURCE MANAGEMENT**

The Town of St George does not have a public works department, or any equipment. All road work associated with flooding will require a constract for repairs. The Maine Department of Transportation may be available for roadway repairs in the advent of a life emergency.

## ATTACHMENT 4 - HAZARDOUS MATERIALS ACCIDENT

#### NATURE OF THE HAZARD

Hazardous materials (HazMat) travel through and are stored in the Town of St George every day. A HazMat accident can happen at any location in town. However, there are certain areas in St George that are more susceptible to a HazMat accident then the other parts of town.

Personnel from the Fire Department may be the first to arrive at the scene of an accident or an incident involving HazMat. Most HazMat materials transported or stored in St George are fuel products. Flammabilities the most likely hazard to personnel. Environmental contamination will be the most likely result.

#### **RISK AREAS**

Route #131 is a primary transportation corridor for tanker trucks carrying bulk fuels (gasoline, heating oil, propane, etc). SR #131 has not been identified as carrying reportable quantities of extremely hazardous materials (EHS); however there are other types of HazMat that may transit this corridor in limited quantities.

Another possible transportation corridor for carrying HazMat is the Rockland and Maine Railroad line. However, at this time, there is no hazmat transported on this line.

The largest concentration of stored fuels is at the School, the transfer station and at several wharves for the fishing industry. There are no gas stations, fuel oil dealers, or propane dealers in St George. There is no chemical processing or waste treatment plants in the community.  $\rho_0^{\circ}$ 

Due to the fact that every home in town has heating systems, the potential for carbon monoxide leaks in homes is moderately high. Carbon monoxide is an inhalation hazard. The Fire Department has an SOP for responding to and resolving residential CO leaks.

#### CONCEPT OF OPERATIONS

Fire Department personnel have been trained to recognize the presence of hazardous materials, collect additional information on the HazMat material, implement personal protective actions, call for trained personnel and secure the area.

Personnel will assess the hazards, keeping in mind the personal safety of department personnel, as well as the safety of others who may be present. The IC will record the incident information on the Maine EMA AR-1 form and will report the information to the KRCC. The IC will assess the situation from a safe distance. Binoculars are located on the Engines. The IC will refer to the 2008 US DOT Emergency Response Guidebook (ERG) for guidance.

The IC will request technical support from the Knox County Regional Response Team (RRT6) and the Maine Department of Environmental Protection, by contacting the KRCC. The Maine DEP will have primary responsibility for the recovery efforts of a HazMat spill. All spills, to include fuel lost from an automobile during a vehicle accident will be reported to the Maine DEP.

The IC will assign a Safety Officer for every incident identified as involving HazMat.

The Fire Department will implement traffic and crowd control procedures, using road blocks as much as possible. The IC will determine what protective actions (evacuations or shelter-in-place) outside the Hot Zone will be

implemented. The 2008 USDOT ERG will be consulted for initial isolation and protective action distances. Evacuees must be moved to a safe place of refuge using routes that will not cause exposure to the HazMat.

The Fire Department will park far enough from the incident site so as to not introduce an ignition source. All vehicles will be parked facing away from the incident, in the event that an emergency withdrawal is required.

The Department will locate a decontamination area upwind of the scene, beyond the inside perimeter, and in a hazard free area. All equipment and uninjured personnel leaving the "hot zone" will be isolated at the decontamination area and decontaminated.

The Volunteer Ambulance Corps will be requested through the KRCC, when the possibility of victims or contaminated personnel exists.

Fire Department personnel will fight fuel and propane fires. Department personnel will perform containment actions for fuel spills that are well outside the hazard areas. An example would be constructing a dike or covering up a storm drain well ahead of the spill.

The Department maintains and trains with carbon monoxide detection equipment and SCBA. Firefighters will shut off heating appliances and ventilate homes that have CO leaks.

### DIRECTION AND CONTROL

The Select Board and EM Director will consider the activation of the EOC during a HazMat incident that causes residents to be evacuated or sheltered-in-place. The IC or OEM Director will establish communications with the Knox County EMA or RCC. The NIMS ICS will be utilized at a HazMat Incident.

### ADMINISTRATION AND LOGISTICS

All St George Firefighters receive annual Hazefat: First Responder Awareness Training. Currently 16 members are trained at the Operations level and one at Cchnician level. Training is accomplished in accordance with 29 CFR 1910.120(q). Immediately following a Hazefat response, the Fire Chief will debrief the responders to determine the summary of response activities, heath and safety issues, any immediate problems and the corrective actions for future responses.

	O Y					
JOR HALL BARK						

## ATTACHMENT 5 – HOSTILE INCIDENT AT SCHOOL

### NATURE OF THE HAZARD

St George is a very small rural community with very few locations for public gatherings. The primary location in town that has a regular public gathering is the Elementary School. Although a political terrorist attack is very unlikely, a domestic incident by an individual or several individuals attacking students is within the realm of possibility. A small improvised explosive device (IED) or an attack with small arms will be the most likely weapons for terrorists to utilize in an attack. The St George school has an approved all-hazard Comprehensive Emergency Management plan.

#### RISK AREA

Our children are very important, so even remote chances for an incident at the School must be prepared for in order to safeguard our most precious resource. St George must rely on the Knox County Storiff's Department and the State Police. There are no security personnel at the School, so school administrators and teachers will be the first line of defense. Internal school policies will attempt to limit weapons from getting into the school in the hands of students, but the school officials have no way to protect against an attack which is in progress. It must be acknowledged that a determined terrorist will be able to attack.

### DIRECTION AND CONTROL

At the first indication of trouble, the Knox County Regional Communications Center must be notified. Consideration by the School District should be given to establishing two-way radio communications, since it would be very easy for a terrorist to cut the telephone lines.

The first arriving law enforcement officer will be the initial incident commander.

School officials will attempt to safeguard the children by evacuating them from the danger zone.

### WARNING

Close contact between the School Officials and the Knox County Sheriff's Department must be established. Any "intelligence" that the Sheriff's bept receives that might be linked to possible eventual trouble at the school should be immediately provided to the School Superintendent.

# EVACUATION

Careful consideration should be given to developing school policy regarding evacuations during terrorist attacks. A recent incident in a southern U.S. school was organized so that the children would evacuate into a "kill zone" by utilizing the fire alarm system. However, sheltering the children in their classrooms is also a way of trapping the children in the danger zone.

Actitionally, an internal method for alerting teachers of the type of danger and what actions should be taken must be established. As mentioned above, using the fire alarm system could make the matters worse.

Locations for students to evacuate to must be established. These locations require a much greater distance from the school then a structure fire, since small arms fire and explosives have a much greater danger zone.

Once internal terrorist incident policies are established, drill evacuations should be practiced. Consider implementing a terrorist incident response training program for teachers and administrators.

### **ATTACHMENT 6 - PROLONGED POWER OUTAGE**

#### NATURE OF THE HAZARD

Due to the rural nature of the community, St George is very susceptible to a prolonged power outage. Severe winter or summer storms, ice storms, hurricanes, and wind storms all have the potential to cause a great deal of damage to the overhead power lines that run along tree lined roads. It is extremely likely that such an event would be regionation nature and therefore little help is expected from neighboring communities.

#### RISK AREA

The effects of a prolonged power outage will be that the normal tasks of heating, cooking water collection, sanitation, waste removal, cleaning, food storage, information gathering, communication and accuiring supplies will be severely restricted or made impossible. The dangers will be greatly increased if the power outage takes place during cold weather.

#### DIRECTION AND CONTROL

The EOC will be activated if the power outage goes into a second day. The Fire Station/Town Office is already equipped with a generator and transfer switch/panel

The EOC will call in the outage information and community status to the Central Maine Power's outage reporting hotline (1-800-696-1000) and to the Knox County EOC.

The Fire Department will be used as a core of volunteers to coordinate all response and recovery. Additional volunteers should be sought to add to the ranks of the FD

### EMERGENCY PUBLIC INFORMATION

If telephones are still functioning, contact should be made to a minimum of one representative on each road who will assist in passing emergency public information to the other residents on that road. Information regarding the requirements for and capabilities of the electrical status, mass care, water, food, heating, sanitation, and other supplies will be passed to the town residents.

1

#### MASS CARE

Most residents will be able to stay in their own homes. Elderly and special needs individuals should be checked up on by the Fire Department to see if these people will need to be transported to a disaster relief shelter. Contact the Knox County EOC to determine what shelters have been established in the County and which may be used by St George residents.
