

## Summary/ Minutes of Comprehensive Plan Committee Workshop January 20, 2024

Present: John Maltais, Toni Small, Greg Soutiea, Alison Fongemie, Leticia VanVuuren, Jim Balano, Bill Farkas, Jane Conrad, Van Thompson, Jenny Slaveck

The Comprehensive Planning Committee conducted a three-hour workshop on Saturday, January 20, 2024, previously announced and open to the general public. The focus of the workshop was to review responses to our initial survey and identify the top priorities that emerged.

We also made a decision regarding our records-retention policy: so long as all data is saved in town-owned computer files, we need not keep hard copies of survey responses and other documents.

We will continue to refine the community's priority areas into what we expect will become the outline for the 2025 Comprehensive Plan . Our next steps will focus on collecting and analyzing additional data about each of the priority areas. The next regularly scheduled committee meeting is 7 pm Tuesday, Feb 6<sup>th</sup>. Development of the full 2025 CompPlan is a lengthy process during which time periodic working sessions, peer/expert reviews, additional committee engagements and public meetings will occur. Public input is essential and welcome!

John Maltais  
Chair  
Comprehensive Planning Committee
